

## Z699 Fuel Filter

Ryco have just released the Z699 fuel filter for Common Rail diesel applications. With a similar external design as the Z252X, the Z699 has a much high efficiency filter media inside with a nominal rating of 5 micron. Due to the high operating pressures and extremely small tolerances that pumps need to operate the Common Rail system, very high efficiency media is required.

With a replacement pump costing upwards of \$1300 you need to have confidence that the filter is doing the right job. As with all Ryco filters, the Z699 is designed to meet and exceed the expectations of the genuine part giving you peace of mind that our filter will do the job expected of it.

## Applications

Make	Model	Series	Engine	Cyl	Litres	Engine Code	Date	Cross Reference
Mazda	BT-50	DX	Turbo Diesel	4	2.5	WL-AT	11/06 – on	WE01 13ZA5
Mazda	BT-50	DX	Turbo Diesel	4	3.0	WL-AT	11/06 – on	WE01 13ZA5
Ford	Ranger	PJ	Turbo Diesel	4	2.5	WL-AT	12/06 – 03/09	AFG182MC
Ford	Ranger	PJ	Turbo Diesel	4	3.0	WL-AT	12/06 – 03/09	AFG182MC
Ford	Ranger	PK	Turbo Diesel	4	2.5	WL-AT	04/09 – on	AFG182MC
Ford	Ranger	PK	Turbo Diesel	4	3.0	WL-AT	04/09 - on	AFG182MC
